IN REPLY REFER TO:

Radio Station WZ00
Asheboro, North Carolina 27203

Gentlemen:

Pursuant to section 73.99 of the Commission rules, Pre-Sunrise Service Authority was previously issued to your station for operation from 6:00 AM local time, or average monthly sunrise at a specified Class I station, whichever is later, to average monthly sunrise at the times shown in your basic instrument of authorization.

In order to specify the sign-on times for your pre-sunrise operation in accordance with section 73.79 of the Commission rules, we have calculated the average monthly sunrise times at the Class I station, adjusted those times to account for any difference in time between the standard time zone in which the Class I station is located and the standard time zone in which your station is located, and further adjusted those times where applicable to account for advanced (daylight saving) time during summer months from the last Sunday in April to the last Sunday in October in accordance with the Uniform Time Act of 1966. If your local sunrise time is earlier, then that time is specified.

Your local sign-on times in accordance with your license or Pre-Sunrise Service Authority, whichever determines, are as follows:
